Third Quarter 2025
September 2025

The latest news, views, and announcements

Footnotes

If you use a type of fuel other than what we have listed, need jurisdiction specific information or information on the U.S. Canadian exchange rate, refer to the IFTA, Inc. website at www.iftach.org and click on Tax Rates in the left column.

Nebraska Fuel Tax Rate

The third quarter 2025 (July 1, 2025, through Sept 30, 2025) fuel rate is \$0.318. The rate for the fourth quarter 2025 (Oct 1, 2025, through Dec 31, 2025) will be \$0.318.

Online IFTA Return

The 2nd quarter of 2025 marked the launch of our new online IFTA return filing system. The rollout was a success, with many carriers also using the amended return feature to correct both current and prior filings.

If you haven't yet accessed the new system using your updated user ID and password, contact us right away. You'll need your login credentials to file your upcoming 3rd quarter IFTA return, as well as for IRP and IFTA renewals.

*** Late-payer Penalty ***

If you fail to pay your IFTA liability on or before the due date of the return, you will be penalized \$50.00 or ten percent of the tax, whichever is higher.

Renewal Season - IRP Staggered Registration

IRP and IFTA renewals will be emailed to carriers with an email address on file. If you don't have an email, the renewal will be mailed to you. Also new this year, the two renewals will be sent separately - two separate email notifications, or in separate envelopes.

As previously announced, Nebraska will implement staggered IRP renewal registration starting with the 2026 renewal cycle.

- Each account has been assigned a specific renewal month.
- Renewal cycles will range from 6 to 17 months, depending on your assigned month.
- The months of November and December are not available as renewal months.

After the 2026 registration expires, your account will transition back to a standard 12-month billing cycle.

****The IFTA registration period will continue to run from Jan through December****

From the Audit Desk:

If you are traveling a low number of miles, make sure you are making at least one fuel purchase each quarter to calculate the Average Miles per Gallon (MPG). If you travel out of state with no fuel, the system will tax all miles based on a 4.0 MPG.
