

Who qualifies for a Handicap Parking Permit?

Before an individual can qualify for a Handicap Parking Permit, they must have a certified medical condition which limits personal mobility resulting in an inability to travel more than two hundred (200) feet without stopping or without the use of a wheel chair, crutch, walker, prosthetic, orthotic, or other assistant device.

Nebraska handicap parking permit statutes provide your medical professional with the [specific medical conditions](#) under which an individual will qualify for a handicap parking permit.

These conditions are (Neb.Rev.Stat [§60-331.02](#)):

- Visual impairment which limits personal mobility resulting in an inability to travel more than two hundred (200) feet without stopping or without the use of a wheel chair, crutch, walker, prosthetic, orthotic, or other assistant device.
- Physical impairment which limits personal mobility resulting in an inability to travel more than two hundred (200) feet without stopping or without the use of a wheel chair, crutch, walker, prosthetic, orthotic, or other assistant device.
- Respiratory problems which limit personal mobility.
- A cardiac condition to extent his or her functional limitations are classified in severity as being Class III or Class IV, according to standards set by the American Heart Association.
- Permanent loss of all, or substantially all, the use of one or more limbs.

If your medical condition does not meet one or more of the specific conditions set in the handicap parking permit statutes, your medical professional cannot provide the medical certification necessary for issuance of a handicap parking permit.
