We're excited to share the new system is 6 weeks into a successful launch and is making a positive impact. We appreciate your patience and understanding during this transition while we continue to fine-tune behind the scenes.

Second Quarter 2025 Filing

This is the first return filed in the new system and there are a couple reminders to share:

- New edit - if you file non-contiguous miles (miles that do not connect state-to-state), the system will require you to make a comment to explain the reason and the MCS office will review prior to completion.
- If you have travelled in a non-IFTA jurisdiction (i.e. District of Columbia, Alaska, etc.) you will enter the miles and gallons for that specific jurisdiction. Prior to the new system, you placed that detail in Other Travel.
- More than one fuel type - if you are a carrier filing more than one fuel type, you will be required to file a return for each.
- Penalty for late payers - you are required to file the return and pay the balance on or before the due date to avoid penalty. This means even though the return is timely, if the payment is made past the due date a penalty will be assessed.

Additional Decals and 30-Day IFTA Temporary Decal

As you request additional decals, you can also request a 30-day IFTA temporary to give you time to get the decal on the truck. You will find the temporary during the flow of requesting the decal(s). There is also a stand-alone temporary under the heading, "Other Supplements/30 Day Temporary Permit". There is an edit on the number of decals you request based on the number of trucks in your IRP fleet, or if no IRP fleet, the number of decals you have ordered in the past. MCS will approve a request that is outside this limit.
